

ASCP Safety & Compliance Conference Programme

Day 1 – Thursday 23 September

Welcome address

Claire Heyes FCCA, Chief Executive, ASCP Group
An introduction to the conference, update and overview.

Why Compliance Doesn't Guarantee Safe Outcomes: An exploration into the world of major accidents

Gill Kernick, Master Consultant, JMJ Associates

The Grenfell Inquiry and Gas Safety

John Vaughan, Technical Safety Manager, CORGI Technical Services

A brief look at some of the gas safety related issues arising from the Grenfell public inquiry. What lessons can be learnt with the benefit of hindsight?

The Building Safety Bill – what does this mean for the sector?

Lachlan McLean, Partner and Emily Jordan, Associate, Forbes Solicitors

With the introduction of the Building Safety Bill in Parliament, Emily Jordan and Lachlan McLean of Forbes Solicitors will be looking at the measures currently proposed and what this might mean for social landlords.

INSPIRATIONAL SPEAKER

Surviving the Impossible

Terry Waite

Terry spent 1760 days in captivity in Beirut. 20 years later he travelled back to meet his jihadist captors. With spirit and humour intact, Terry shows that hardship can often be a source of strength; he also recalls how one guard unwittingly gave him a copy of The Great Escape!

AESM LIVE

Applying 'Engineering Judgement', when determining inspection and testing frequencies

Calum Mansell, Technical Safety Manager, Electrical, CORGI Technical Services

A review of associated Legislation, common misconceptions, and the challenges for Electrical Safety Managers, assessing the EICR, and best practice.

Hear from the Standard Setters

Mark Coles, Head of Technical Regulations, IET
A review of BS7671 from the beginnings in 1882 to the current requirements and beyond, as well as common challenges and misconceptions for landlords.

The Rise of the 'Prosumer'

Luke Osborne, Energy & Emerging Technologies Solutions Advisor, ECA

The Prosumer concept links in all the energy flows within a building - including energy generated, stored and consumed. Already in international legislation, the idea of the prosumer is likely to become part of UK legislation in the near future. This could be an important detail for landlords as it looks to enhance end users energy experiences and push forward the decentralisation of energy generation.

Heat Pump Innovation for the Retro-Fit Market

Craig Dolan, Product Manager, Vaillant Group

How heat pump innovation can now fully address hard to heat and hard to treat properties. Giving an exciting preview of a true retrofit heat pump.

Increased Risk from Legionella Following Lockdown

Matt Morse, Council Member, Legionella Control Association (LCA)

Presentation of evidence from several studies showing an increased risk of legionella growth in water systems following building closure and an increased risk of legionella infection with COVID-19. Guidance will be given for the safe reopening of buildings.

Hydrogen; a critical part of heat decarbonisation

Jeff House, Head of External Affairs, Baxi Heating

How the introduction of heating buildings with Hydrogen could support the UK's legislated target of 'net-zero' emissions by 2050.

Building Safety; a delivery strategy

Neil Yeomans, Head of Customer Safety, Orbit

This session looks at the cultural challenges the new building safety regime brings, and shows the strategy that Orbit are deploying to get ready for the new legislation.

Women in Compliance Networking & Coaching session

How to Deal with Difficult Conversations

Join us for this inspiring session where our professional Coach, Stephanie Smith, will guide us through this game-changing topic.

Day 2 – Friday 24 September

Welcome address

Bill Paton, Chairman, CORGI Technical Services
Welcome and introduction to day 2.

KEYNOTE SPEAKER

Hydrogen and Carbon Capture Revolution

Jon Butterworth, MBE, CEO, National Grid Gas Transmission & Metering, National Grid Plc

Jon will bring to life the exciting future for gas in the UK outlining the 'Hydrogen and Carbon Capture Revolution'. This de-carbonisation of our fuel will ensure cheap energy and protect all heavy industry across the UK, whilst ensuring National Grid is at the vanguard of world leading technology and ambition.

Update on Gas in Multi-Occupancy Buildings and Gas Installations in Respect to DSEAR

Mark Duffy, Technical Safety Manager, CORGI Technical Services

Discussing challenges you may face with larger properties and how to overcome them.

Stay Safe; asbestos work procedures

Prof. Roger Willey, Managing Director, ACS Physical Risk Control Ltd

Asbestos related deaths have risen sharply over the past few years. It is the biggest single industrial killer in the UK. What can you do to minimise the risk?

Could You Survive a Cross-Examination?

Karen Jones, Barrister, Bond Solon

Bond Solon are back! A courtroom drama – the cross examination of compliance professionals in the witness box.

The Future Homes Standard – driving towards net zero, implications for the new build

Elizabeth Wilkinson, Head of Domestic Product Management Groupe Atlantic UK & ROI, Groupe Atlantic

Climate change is firmly in the public eye and Government targets. How changing regulations will impact domestic heating in the new build, and implications for housebuilders, housing providers and tenants.

Beyond the Fire Risk Assessment

Pete Moulson FRACS, MIFSM, NAFFAR, Managing Director, Fire Compliance Management Services Ltd

How confident are you that your organisation is complying with the Fire Regulations? What does Fire Compliance actually mean? How important is competence, and reputational risk? How serious do we actually take our fire safety responsibilities and obligations?

Compliance, Best Practice, and Due Diligence for Building Safety

Simon Ince, Project Engineer, UL

Simon will take a look at new guidance and initiatives supporting the 'raising the bar' agenda for building safety; outlining how adopting best practice, is the responsible thing to do!

Programme may be subject to change

ASCP 2021

Safety & Compliance Conference
